

COMPOSITIONS AND METHODS FOR
THE INTRACELLULAR DELIVERY OF ANTIBODIES

Abstract of the Disclosure

5

This invention provides a composition of matter comprising an antibody and a peptide moiety, wherein the peptide moiety comprises an amino acid residue having a nitrogen-containing side chain and wherein the peptide is covalently bound to a carbohydrate moiety of the antibody. This invention also provides a pharmaceutical composition comprising the composition of matter and a pharmaceutically acceptable carrier. Finally, this invention provides methods and kits relating to the composition of matter.
